**Business**   
**Case Competition**

# Problem Identification

## Core Problem:

Consumers distrust local premium sunscreens, favor foreign brands, and see sunscreen as optional rather than essential

## Market Challenges:

**Poor skincare literacy-** long term care undervalued

**Saturated Market -** Crowded field, foreign control, little room to stand out

**Consumer Looks for cheaper alternatives-** turning premium positioning into adoption hurdles

## Trust Barriers

Widespread fake cosmetics have made consumers skeptical for all brands especially local ones.

Consumer perceive local skincare as risky, not reliable

# Target Group or Buyer Persona

- Name: Anika
- University Student
- Hate White Cast
- Trust gap

## Target Group

|          |       |       |
|----------|-------|-------|
| Women    | 18-34 | Urban |
| Men      | 22-30 | Urban |
| Students | 18-22 | Both  |

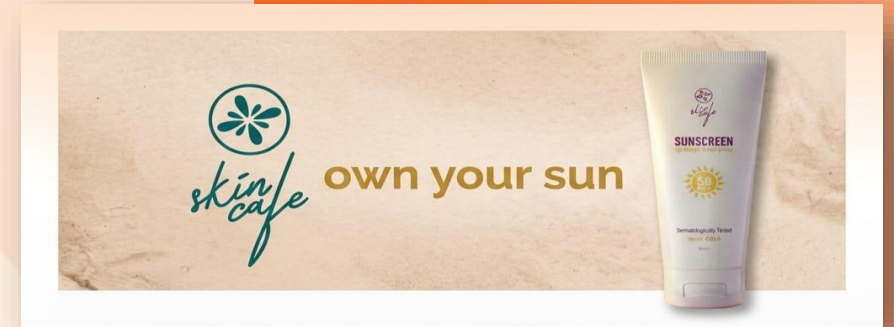

- Name: Rafi
- Junior Officer
- Avoids skincare
- Thinks Its for Women

## The Big Idea

# Own Your *SUN*

## The Tagline

***“ No more sunburn  
because you Own your  
SUN ”***

It tells the consumer - You don't have to hide from the sun to avoid getting burned; you just have to take control of it

# Plan Of Action For 12 Month

Phase 1

## Build Trust

High Investment  
Low Return

Phase 2

## Drive Trial

Medium Investment  
Medium Return

Phase 3

## Scale Loyalty

Medium Investment  
High Return

# Certification

“ Everybody believes the label ”

- Highlight Halal Certification
- Build Reliability
- Attract Mass Target Group
- Added Value Proposition

# See The Unseen Campaign

**See The Unseen Campaign  
Addresses the low  
consumer  
awareness and  
“Sunscreen is  
only for summer”  
misconceptions  
by physically  
proving UV  
damage**

# See The Unseen Campaign

**Step 1 (Reveal):**  
Bare face under  
UV mirror →  
hidden  
pigmentation & sun  
damage exposed.

**Step 3 (Selfie & Capture):** Take  
split-screen  
“before vs  
after” selfie

**Step 2**  
(Protection): Apply  
Skin Cafe  
Sunscreen →  
screen shows it go  
completely black,  
proving 98% UV  
block.

**Step 4 (Viral Loop):**  
Scan QR code → post to FB/IG with  
#skincafeUVchallenge #funfriday  
#beforevsafter #skincafe  
#seentheunseen + tag Skin Cafe to get  
digital photo.

# See The Unseen Campaign

Raise awareness about sun damage in different areas with a dermatologist-led UV skin test booth. Educate participants and give them goodies, leaflets

Flyer Marketing

**UV Selfie Gift:**  
The most creative selfie wins a 6 month 30% discount card for anything at Skin Cafe. Winners are announced Second and Fourth #FunFriday of the month. Cards are delivered online with the discount timeline.

“Peel And Protect”  
Wall

## Goodies Distribution

**5ml Single use sample sachet**

**Silicon Bands that changes color when exposed to harsh UV Light**

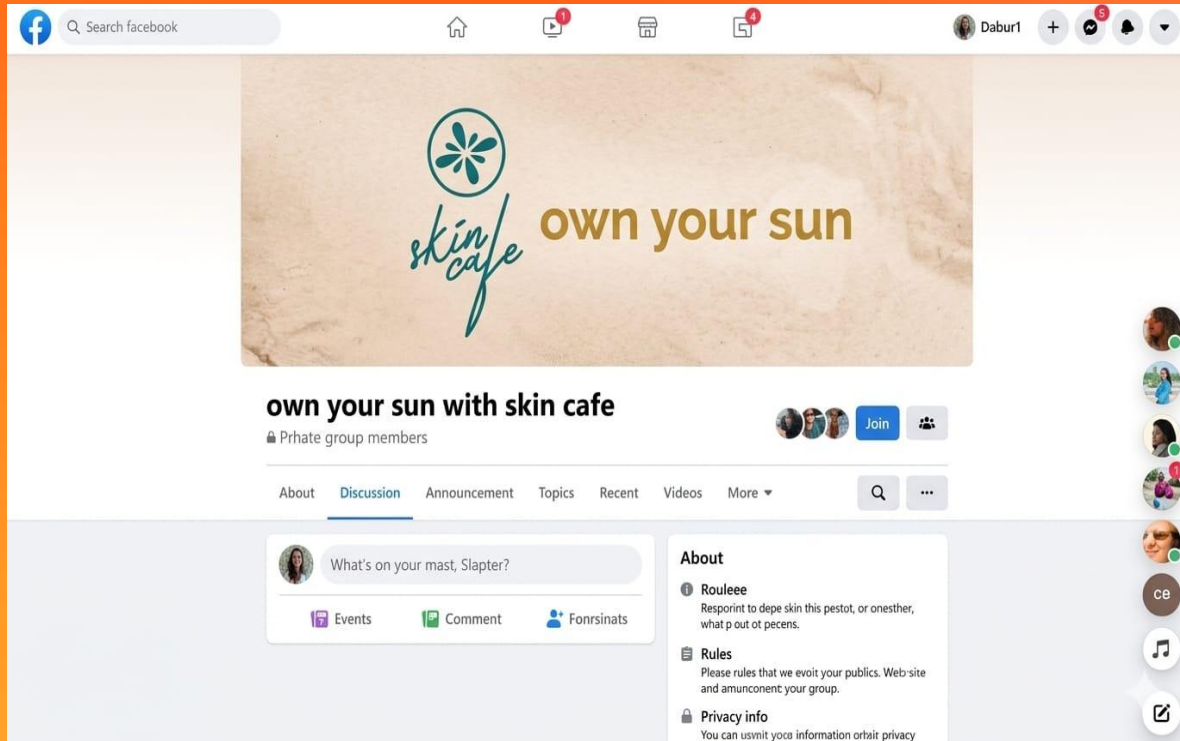

**Mini UV Detection Stickers**

# Facebook Community Building

## Content Engine:

- Sharing memes and realism
- Interactive Polls
- Skincare tips

Is somebody gonna match my UV protection?

# Feasibility and Practicality

## Low Consumer Trust in Local Brands

UV test booth activations + Dermatologist+ Halal certification display

## High Market Competition (Local + International)

Climate-appropriate formula + No white cast + SPF 50 PA+++ at competitive price (BDT 650)

## Limited Awareness of UV Damage

UV camera selfie booths + Social media contest #seentheunseen

## Low Daily Sunscreen Usage Habit

Year-round UV awareness campaigns + Seasonal messaging

## Counterfeit Products Damaging Brand Confidence

Tamper-proof packaging + QR code verification on every tube

All challenges addressable with proposed strategies – No major execution barriers.

***Thank You***
